Director, University of MN Extension Center for Youth Development

Plus two Workshop Sessions

(Choice of two of the following four sessions):

- **Tapping the Potential: Youth Engagement Programs & Strategies**
Learn about programs, projects, opportunities, and new youth and adult training on youth engagement through a statewide initiative on youth engagement.
- **Making Science, Engineering, and Technology Exciting for Youth**
Learn how to draw young people into science and technology through interactive, experiential learning activities.
- **Quality Matters—The Toolkit Session**
This hands-on training session reviews toolkits for building youth program quality, which are designed for anyone who works directly with youth.
- **Culturally Responsive Youth Work Matters**
Explore how cultural values, beliefs, and identities can be a factor in the relationship between youth and adults of different backgrounds
