**MORAVIAN LOVEFEAST**

*This simple service will include scripture readings, musical performances, congregational singing and the serving of small buns, coffee and juice in the pews. A traditional Moravian service, it dates back to the mid-1700s in Germany and ritualizes the agape meals of the early church, reminding us that we are all bound together around a common table. Together we make up the family of God, related to one another through Christ Jesus.*
